Did you know human trafficking is happening in West Virginia?

Join YWCA Charleston for a panel discussion on how West Virginia is responding to human trafficking from an enforcement and prosecution front, how we are supporting survivors and how you can help. A candlelight vigil will be held in honor of victims and survivors.

The event will feature a brief reception and music by Amanda Bridgette, creator of a musical drama set in the world of human trafficking.

Seating is limited. Event is free and open to the public. Reserve your seat today: [RSVP online at YWCACharleston.org](http://YWCACharleston.org).
